THE FIRST INTERNATIONAL
RCPCH CONFERENCE IN
MENA REGION

EARLY CHILDHOOD HEALTH AND DEVELOPMENT

at Intercontinental City Stars
from 29th to 31st of January, 2019
Welcome Message

We are very excited and pleased to announce the First International Royal College of Paediatrics and Child Health (RCPCH) Conference in MENA bringing to the region an exceptional opportunity to learn about the most up to date issues related to early childhood health and development which we believe is the key to a brilliant future. This will help to achieve the Sustainable Millennium Development Goals (SMDG) and Egypt’s strategic goals for 2030.

The Conference presents a unified platform for academia, industry, civil society organizations, entrepreneurs and the private sector, in a collaborative effort, to generate better child health outcomes and create improved access to health care for infants, children and young people across the region.

Taking place in Cairo, on January 29th to 31st 2019, this will be an energizing three days full of sessions that will take different formats; panel discussions, lectures, workshops and teaching/training courses to run parallel as well as around the conference time to satisfy all your needs.

Book your place to enjoy the first Royal College of Paediatrics and Child Health conference in the MENA region - one of the most comprehensive and exciting events on Early Childhood Development ever planned.

We look forward to welcome you to Egypt in January 2019

RCPCH 2019
Conference Presidents
Dr. Ahmed Abdelsalam Mostafa Hassan (EMA.RCPCH)
Dr. Amal Younan Abd El Malek (EMA.RCPCH)
Dr. Amira Ramadan Ahmed (EMA.RCPCH)
Dr. Ayman El-Hareri (EMA.RCPCH)
Dr. Azza Soliman (EMA.RCPCH)
Dr. Dalia Louis (EMA.RCPCH)
Dr. Ingry Ibrahim Mohamed Abdul Latif (EMA.RCPCH)
Prof. Fatma Ebied, Ain Shams University (EMA.RCPCH)
Dr. Hany Wifky, Galaa’ Teaching Hospital (EMA.RCPCH)
Prof. Hesham Awad, Ain Shams University (EMA.RCPCH)
Dr. Hesham Omar, Consultant of Paediatrics (EMA.RCPCH)
Prof. Khalil Abdelkhalek, Cairo University (EMA.RCPCH)
Prof. Mahmoud Yousry Eissa, National Research Institute (EMA.RCPCH)
Dr. Manal Taher, Agouza Police Hospital (EMA.RCPCH)
Prof. Mohamed Attia Elbayoumy, Mansoura University (EMA.RCPCH)
Dr. Nagat Arafat, Benha Specialized Hospital (EMA.RCPCH)
Prof. Nermeen Hussein sayed, Ain Shams University (EMA.RCPCH)
Prof. Khaled Elsheikh, Mansoura University (EMA.RCPCH)
Prof. Noha Tharwat, Mansoura University (EMA.RCPCH)
Prof. Rasha Gamal Eid, Cairo University
Dr. Randa Fathi Darwish, Ahmed Maher Teaching Hospital (EMA.RCPCH)
Dr. Refaat El-Gabry, Gabry Hospitals (EMA.RCPCH)
Dr. Safwat Hegazy Ahmed Hegazy, Sahel Teaching Hospital (EMA.RCPCH)
Dr. Sawsan Samir Hosny Hamza, Galaa’ Military Hospital (EMA.RCPCH)
Dr. Shereen Nader, Saudi German Hospital (EMA.RCPCH)
Prof. Wael Lotfy, Cairo University (EMA.RCPCH)
G. Dr. Wael Hamza, Ghamra Military Hospital (EMA.RCPCH)
Dr. Wafaa Hasaballah, Tabarak Hospital (EMA.RCPCH)
Dr. Wiam Al Farouk Younis, Galaa’ Military Hospital (EMA.RCPCH)
Dr. Wigdan Ahmed, Galaa’ Military Hospital (EMA.RCPCH)
Organizing Committee

Dr. Ahmed Taha Elkeiey (EMA.RCPCH Associate)
Dr. Ahmed Mohammed Ahmed Aly (EMA.RCPCH)
Dr. Ahmed Saleh (EMA.RCPCH)
Dr. Ahmed Youssef, Galaa’ Military Hospital
Ms. Amira Saber (EMA.RCPCH Administration)
Dr. Aya Shaaban, Galaa’ Military Hospital (EMA.RCPCH)
Dr. Eman Saad (EMA.RCPCH)
Dr. Enas El Sherbiny, Ministry of Health, Egypt
Dr. Farida Mahgoub, Emory University, USA
Dr. Hagar Mohamed Abd El-hamid (EMA.RCPCH)
Dr. Howayda Abouelella, Galaa’ Military Hospital
Eng. Isra Aziz (EMA.RCPCH Administration)
Dr. Maha Zaghloul (EMA.RCPCH Associate)
Dr. Manar Khader Elsayed Azab (EMA.RCPCH Associate)
Dr. Manar Mobarez (EMA.RCPCH)
Dr. Nehal Raafat, Galaa’ Military Hospital
Dr. Osama Hussein, Port Said Neonatology Association
Dr. Othman El shewehy, Ministry of Health
Dr. Rabab Hashem, Ministry of Health
Dr. Rana El Garhy, Galaa’ Military Hospital
Dr. Rana Mohamed Ismail Heda (EMA.RCPCH Associate)
Dr. Sherry ElKodsy, Galaa’ Military Hospital

CONFERENCE PRESIDENTS

PROF. ABLA EL/hyphen.caseALFY
RCPCH Regional Advisor MENA
President of EMA-RCPCH

PROF. RUSSELL VINER
President of RCPCH
Professor of Paediatrics,
University College London

GENERAL. PROF. MOURAD TADROS
VICE PRESIDENTS
HEADS OF SCIENTIFIC COMMITTEE

PROF. MOHAMED ATTIA
Dean of the Faculty of Medicine
Mansoura University
Vice President of EMA-RCPCH

GENERAL.  DR. OSAMA QASSEM
DR. CAMILLA KINGDON
Head of London School of Paediatrics
RCPCH Vice President for Education
and Professional Development
Professor of Neonatology
And Clinical Respiratory Physiology
King’s College London

PROF. ANNE GREENOUGH
Professor of Paediatrics – Cairo University
Safeguarding Children, Training Director
EMA –RCPCH

PROF. NERMEEN M. GALAL
Director of Al Galaa Children and
Women Specialty Military Hospital
Head of Paediatric Department
Al Galaa Children and Women Specialty Military
Hospital - EMA Board Member

SESSIONS

29th to 31st of January, 2019

Time
9.00 – 18.00

Location
Al Saraya Ballroom
### Session 1
(Plenary)

Educational activities on 29th January are suitable for CME. If required, delegates should use the principal of 1 hour of learning is equal to 1 CME point.

Session 1
(Plenary)

CHAIRPERSONS:
Prof. Adel Reyad, Benha University (Egypt)
Prof. Hayam El Khueeb, Ain Shams University (Egypt)
Prof. Howayda Elgebaly, Ain Shams University (Egypt)
Prof. Samer El Khayat, Ain Shams University (Egypt)
Prof. Soad Mousa, Cairo University (Egypt)

9.00 - 9.50
AN APPROACH TO THE CHILD WITH SPECIAL NEEDS
Dr. Bidisha Lahoti
Evelina London Children’s Hospital (UK)

9.50 - 10.40
CHILD MENTAL HEALTH
Dr. Rafik Refaat
East London NHS Foundation Trust (UK)

10.40 - 10.45
DISCUSSION

10.45 - 11.00
COFFEE BREAK

Session 3

CHAIRPERSONS:
Prof. Ahmed Saeed Younis, Egyptian Paediatric Association (Egypt)
Prof. Lamia Mohsen, Cairo University (Egypt)
G. Prof. Mourad Tadros, Galaa Military Complex (Egypt)
Prof. Nahed Fahmy, Cairo University (Egypt)
G. Prof. Sameh Tawfik, Maadi Military Complex (Egypt)

16.00 - 16.50
COMMON DERMATOLOGICAL DISORDERS IN CHILDHOOD
Dr. Helen Goodyear
Birmingham Heartlands Hospital (UK)

16.50 - 17.20
HEPATITIS C IN CHILDREN
Prof. Tawhida Abdel Ghaffar
Ain Shams University (Egypt)

17.20 - 17.30
DISCUSSION

17.30 - 18.00
COMPANY SYMPOSIUM
RECENT DATA ON THE IMPACT OF PCV-13 ON PNEUMOCOCCAL DISEASES
Prof. Ahmed El Beleidy, Cairo University (Egypt)

LATE LUNCH
Session 2

CHAIRPERSONS:
Prof. Ahmed Tarek, Cairo University (Egypt)
Prof. Atif Donia, Azhar University (Egypt)
Prof. Hamed El Khayat, Ain Shams University (Egypt)
Prof. Moataza El Basheir, Cairo University (Egypt)

11.00 -12.00  
PAEDIATRIC EMERGENCY MEDICINE  
Dr. Damian Roland  
University of Leicester NHS Trust (UK)

12.00 - 13.00  
NEONATAL AND INFANTILE SEIZURES  
Dr. Das Krishna  
Great Ormond Street Hospital (UK)

13.00 - 13.10  
DISCUSSION

13.10 -13.30  
LIGHT LUNCH

Session 3

CHAIRPERSONS:
Prof. Ashraf Abdul Baky, Military Medical College (Egypt)
Prof. Eman Foda, Ain Shams University (Egypt)
Prof. Laila Abdul Ghafar, Ain Shams University (Egypt)
Prof. Mohamed Attia, Mansoura University (Egypt)
Prof. Nader Fasseeh, Alexandria University (Egypt)

13.30 - 14.30  
ASTHMA GUIDELINES  
Dr. Damian Roland  
University of Leicester NHS Trust (UK)

14.30 - 15.00  
APPROACH TO DIAGNOSIS OF HYPOGLYCEMIA  
Dr. Dina Ramadan  
Sabah Paediatric Hospitals (Kuwait)

15.00 - 15.30  
CONGENITAL BRAIN MALFORMATION  
Prof. Maha Zaky  
National Research Institute (Egypt)

15.30 - 15.40  
DISCUSSION

15.40 - 16.00  
COFFEE BREAK
Session 1 ( Plenary )

CHAIRPERSONS:
- Prof. Elham Hosney, Ain Shams University (Egypt)
- Prof. Hussam abou el Fattoh, Benha University (Egypt)
- Prof. Magy Louis, Cairo University (Egypt)
- Prof. Mohamed Rashad, Benha University (Egypt)
- Prof. Zeinab Awad, Ain Shams University (Egypt)

9.00 - 9.50

CHILDHOOD ALLERGY

Dr. Marta Krawiec
Evelina London Children’s Hospital (UK)

9.50 - 10.20

COMPANY SYMPOSIUM

- HVD MOLECULAR ALLERGOLOGY: CLINICAL APPLICATION FOR DIAGNOSIS AND TREATMENT OF ALLERGIC DISEASES
  - Dr. Carla Irani
  - Allergist/Immunologist at Hotel Dieu de France (Lebanon)

- AN INTRODUCTION TO SOME APPLICATIONS OF NUTRIGENOMICS IN CLINICAL PRACTICE
  - Dr. Danny Meyersfeld
  - CEO: DNAlysis Biotechnology- University of the Witwatersrand (South Africa)

10.40 - 11.00

COFFEE BREAK

Session 4

CHAIRPERSONS:
- Prof. Abdel Moneim Kheir, Khartom University (Soudan)
- Prof. Ahmed Raouf, Agouza Police Hospital (Egypt)
- Prof. Maha Awadalla, Royal London Hospital Barts Health (UK)
- Prof. Noha El Sabaa, Al Galaa Military Complex (Egypt)
- Prof. Sherif Abd El Aal, Cairo University (Egypt)

16.00 - 16.30

AUTISTIC OR NOT AUTISTIC

Dr. Rafik Refaat
East London NHS Foundation Trust (UK)

16.30 - 17.40

MEET THE EXPERTS & DCH CERTIFICATES DISTRIBUTION

If you want to ask about:
- New RCPCH examination system
- Medical training initiatives in UK
- Regulations and vacancies for working in UK

Please join us
Meet the experts from RCPCH, British Council and British Embassy

17.40 - 18.00

WHOLE EXOME SEQUENCING & INBORN ERRORS OF METABOLISM, PRACTICAL EXAMPLES.

Prof. Osama K. Zaki
Consultant of Medical Genetics, Ain Shams University Hospital, Cairo. (EGYPT)

LATE LUNCH

Educational activities on 30th January are suitable for CME. If required, delegates should use the principal of 1 hour of learning is equal to 1 CME point.

Educational activities on 31st January are suitable for CME. If required, delegates should use the principal of 1 hour of learning is equal to 1 CME point.
Session 2

CHAIRPERSONS:
Dr. Khalid El Atawy, United Arab Emirates
Prof. Enas Raafa, National Research Institute (Egypt)
Prof. Trez Boshra, Ain Shams University
Prof. Magdy Mostafa Kamel, Menya University (Egypt)

11.00 - 12.00  OPTIMIZING INFANT AND CHILD NUTRITION
Prof. Mary Fewtrell
University College London (UK)

12.00 - 12.30  EXCLUSIVE BREAST FEEDING: KEY PRACTICE FOR SUCCESS
Prof. Abla El-Alfy
Galaa Military Complex (Egypt)

12.30 - 12.40  DISCUSSION

12.40 - 13.10  COMPANY SYMPOSIUM
FALTERING GROWTH IN INFANCY AND CHILDREN
General Prof. Mourad Tadros
Galaa Military Complex (Egypt)

13.10 - 13.30  LIGHT LUNCH

Session 3

CHAIRPERSONS:
Prof. Ahmed Badr, Cairo University (Egypt)
Prof. Ahmed El Refaey, Mansoura University (Egypt)
Prof. Ehab EL Hakeem, Ain Shams University (Egypt)
Prof. Amr Sarhan, Mansoura University (Egypt)
Prof. Osama Hussein, PortSaid Neonatal Association (Egypt)

13.30 - 14.15  GUIDELINES OF URINARY TRACT INFECTION MANAGEMENT
Dr. Judith Van der Voort
University Hospital of Wales (UK)

14.15 - 15.30  THE EPIDEMIC OF STUNTING (PANEL DISCUSSION)
Prof. Gihan Fouad Ahmad
National Nutrition Institute (Egypt)
Prof. Mohamed Ezz
Mansoura University (Egypt)
Prof. Rasha Tarif Hamza
Ain Shams University (Egypt)
Prof. Wagida Anwar
Ain Shams University (Egypt)
Coordinator: Prof. Nehal El Koofy
Cairo University (Egypt)

15.30 - 16.00  COFFEE BREAK
Session 4

CHILD WITH METABOLIC HEPATIC DISORDERS

CHAIRPERSONS:
G. Dr. Abdul Nasser Hussein, Misr Elgedida Military Hospital (Egypt)
Dr. Dina Ramadan, Sabah Hospital (Egypt)
Prof. Maha Abou Zekry, Cairo University (Egypt)
G. Dr. Wael Hamza, Ghamra Military Hospital (Egypt)
Prof. Othman El Shewihy, Ministry of Health (Egypt)

16.00 - 16.30 HYPERAMMONAEMIA MANAGEMENT
Prof. Sufin YAP
Sheffield children’s Hospital (UK)

16.30 - 16.50 TYROSINEMIA
Prof. Hanaa El-Karaksy
Kasr Al-Ainy School of Medicine, Cairo University (Egypt)

1650 - 17.00 DISCUSSION

1700 - 17.20 COMPANY SYMPOSIUM
A CHALLENGING METABOLIC MYSTERY
Prof. Mohamed Hussein Abbas
National Research Center (Egypt)

17.20 - 17.50 COMPANY SYMPOSIUM
RARE METABOLIC DISORDERS IN EGYPT “PARTNERSHIP FOR BETTER OUTCOME”
Prof. Lalia Selim
Cairo University (Egypt)

17.50 - 18.00 RECOMMENDATIONS AND CLOSING

LATE LUNCH

  Prof. Khalil Abdel Khalik
  Cairo University (Egypt)
  **Facilitator:** Dr. Howayda Abou El Ela (Egypt)
  Dr. Eman Saad (Egypt)

LATE LUNCH
Workshops 29th to 31st of January, 2019

Room 1

13.30 - 15.30  CARDIAC EXAMINATION MADE EASY
Dr. Majeed Jawad
Surrey and Sussex Healthcare NHS Trust (UK)
Prof. Wael Lotfy
Cairo University (Egypt)
Facilitator: Dr. Amal Younan (Egypt)

15.30 - 16.00  COFFEE BREAK

16.00 - 18.00  CARDIAC EMERGENCIES
Prof. Majeed Jawad
Surrey and Sussex Healthcare NHS Trust (UK)
Prof. Wael Lotfy
Cairo University (Egypt)
Facilitator: Dr. Amal Younan (Egypt)

Room 2

13.30 - 15.30  SEXUAL HEALTH IN CHILDHOOD
Dr. Sophie Khadr
King’s College Hospital (UK)
Prof. Azza El Bakry
Cairo University (Egypt)
Facilitator: Dr. Eman Saad (Egypt)

15.30 - 16.00  COFFEE BREAK

16.00 - 18.00  FEMALE GENITAL MUTILATION
Dr. Sophie Khadr
King’s College Hospital (UK)
Prof. Maysa Shawky
Cairo University (Egypt)
Facilitator: Dr. Randa Darwish (Egypt)

Room 3

13.30 - 15.30  DECISION MAKING IN CHILDREN’S A&E
Dr. Damian Roland
University of Leicester NHS Trust (UK)
Prof. Hafez Bazaraa
Cairo University (Egypt)
Facilitator: Dr. Nehal Refaat (Egypt)

15.30 - 16.00  COFFEE BREAK

16.00 - 18.00  VACCINATION - FROM CONCEPT TO ACTION
Prof. Tarek Barakat
Mansoura University (Egypt)

Room 4

09.30 - 15.30  CHILD MENTAL HEALTH – THE ROLE OF THE GENERAL PAEDIATRICIAN
Dr. Rafik Refaat
East London NHS Foundation Trust (UK)
Prof. Tarek Omar
Alexandria University (Egypt)
Facilitator: Dr. Injy Abd El Latif (Egypt)

15.30 - 16.00  COFFEE BREAK

16.00 - 18.00  APPROACHES TO QUALITY IMPROVEMENT IN CHILD HEALTH
Dr. Andrew Long
Great Ormond Street Hospital (UK)
Facilitator: Dr. Sherine Nader (Egypt)

Educational activities on 31st January are suitable for CME. If required, delegates should use the principal of 1 hour of learning is equal to 1 CME point.
WHY PRE & POST CONFERENCE COURSES

Because we believe that training assures quality and quality saves lives, money and brains.

Egyptian Members’ Association of the Royal College of Paediatrics and Child Health, in collaboration with international experts and top universities are honoured to announce the start of training programmes on the needed subspecialties for the Egyptian health care system to contribute to optimal early childhood health and development.

Six important programmes will start before and after the first RCPCH-MENA conference.

Attending these courses will qualify you to be enrolled for training of trainers courses (clinical practice and training methods ) as one of our focal groups to improve such practice in Egypt.

PRE & POST CONFERENCE COURSES

Time
10.00-16.00

Location
• Children and women specialty hospital, El galaaa Military complex, First Floor
**APPROACH TO A CHILD WITH IMMUNODEFICIENCY**

**Friday, 25th of January, 2019**

Team instructors: Immunology department-Cairo University

- Prof. Aisha Elmarsafy
- Prof. Nermeen Galal
- Dr. Jeanette Boutros
- Dr. Dalia Salah
- Dr. Radwa Alkady
- Dr. Sohillia Lotfy
- Dr. Safa Meshaal

Facilitators: Dr. Ahmed Yousef - Dr. Wigdan Ahmed - Dr. Rana El Garhy

**OBJECTIVES**

- Identify warning signs of primary immunodeficiency disorders (PID disorders).
- Get acquainted with different pathogens inflicting different PID disorders.
- Get introduced to the different categories of PID disorders eg: antibody/combined/phagocytic disorders/immune dysregulation (causes & presentations).
- Understand principles of diagnosis and management for different groups of PID disorders.
- Solve problems with case-based scenarios pertaining workup and diagnostic approach.

**INBORN ERRORS OF METABOLISM COME IN ALL COLOURS**

**Saturday, 26th of January, 2019**

Instructor: Dr. Dina Ramadan, Sabah Hospital (Kuwait)

Facilitators: Dr. Howayda Abou El Ella - Dr. Sawsan Samir

**OBJECTIVES**

- Understanding the concept that inborn errors of metabolism come in all colors.
- The presentation and management of the acute illness in inborn errors of metabolism.
- The counseling skills for children with IEM “I am special and so is my diet”.
- Urea cycle disorders; from basics to diagnosis.
- Fatty acid oxidation defects.
**Instructor:** Prof. Maha Awadalah, Royal London Hospital, Barts health (UK)

**Prof. Noha Tharwat,** Mansoura University (Egypt)

**Facilitators:** Dr. Sherry El kodsy - Dr. Areej Mohamed Salah - Dr. Rana El Garhy

---

**EPILEPSY FOR GENERAL PAEDIATRICIANS**

**Sunday, 27th of January, 2019**

**OBJECTIVES**

- Describe the difference between seizures, epilepsy and epileptic syndromes.
- Describe seizure types and their mimics.
- Acquire the skill of history taking for the diagnosis of epilepsy.
- Use the ILAE axis diagnostic scheme for the diagnosis of epilepsy.
- Identify the role of EEG and brain imaging in epilepsy diagnosis.
- Have awareness of the basics of pharmacological treatment of epilepsy.

---

**AUDITING AND CLINICAL GOVERNANCE**

**Monday, 28th of January, 2019**

**Instructor:** Dr. Eman Al Waidh, East Surry Hospital, Redhill Surrey (UK)

**Prof. Noha Tharwat,** Mansoura University (Egypt)

**Facilitators:** Dr. Ahmed Yousef - Dr. Wigdan Ahmed - Dr. Rana El Garhy

**OBJECTIVES**

- Definition of auditing and clinical governance on health care.
- How to run an audit.
- Clinical governance cycle.
- Clinical scenarios in small groups.
- Impact of running an audit on health care system.
EFFECTIVE EDUCATIONAL SUPERVISION

Venue: Cairo Intercontinental City Stars

Main Observers: Dr. Helen Goodyear, University Hospitals of Birmingham (UK)
Dr. Judith Van der Voort, University Hospitals of Wales (UK)

Instructors: Dr. Afaf Koraa, Azhar University (Egypt)
Dr. Amal Younan, National Heart Institute (Egypt)
Dr. Dalia Louis, Galaa Military Hospital (Egypt)
Dr. Injy Abd El Latif, Alexandria University (Egypt)
Dr. Wiam Younis, Galaa Military Hospital (Egypt)

Facilitators: Dr. Randa Darweesh - Dr. Wigdan Ahmed - Dr. Rana El Garhy

COURSE AIMS AND OBJECTIVES

- Understand the roles of clinical and educational supervisors.
- Understand the difference between formative and summative assessment.
- Have an overview of different teaching and learning methods.
- Know how to prepare and conduct a good educational supervision session and use portfolios appropriately.
- Feel confident in assessing their trainees’ learning needs.
- Understand the complexities of a trainee in difficulty.
- Feel confident in applying different strategies for managing trainees in these circumstances.
- Feel confident in applying different strategies to support the trainee who is excelling.
- Have developed techniques for giving feedback effectively in a way which encourages learning.

NEURODEVELOPMENTAL ASSESSMENT OF NICU GRADUATES

Instructor: Prof. Tarek Omar, Head of Paediatric Neurology Department
Alexandria University (Egypt)

Dr. Marwa Saeed, Lecturer of neurology, Alexandria University

Facilitators: Dr. Sherry El kodsy - Dr. Injy Abd El Latif - Dr. Ahmed Yousef

COURSE AIMS AND OBJECTIVES

- Recognize characteristics of the neonatal brain and the trends in brain development correlated with the infant development over time.
- Understand the concept of outcome following NICU graduation with emphasis on neuro-developmental aspects (cognitive, sensory, motor, behavioral and psychological).
- Differentiate between pre-term and term infants regarding their risks of neurodevelopmental morbidity.
- Understand the concept and strategies of neuro-protection in NICU.
- Recognize the predictors of long term neuro-developmental outcome (Initial entry criteria – Role of neuroimaging – Associated conditions).
- Acquire the skills to provide anticipatory and preventive care of NICU graduates (who should be followed - Assessments toolkits for monitoring - Assessment schedule of follow up).
- Appreciate the importance of national neonatal follow up program.
President of the Royal College of Paediatrics & Child Health (RCPCH). Academic Paediatrician and Adolescent Physician, UCL Institute of Child Health in London.
Director of Department of Health Obesity Policy Research Unit, University College Hospital.

He is also Professor of Adolescent Health at the UCL Institute of Child Health in London, a paediatrician and adolescent physician working with young people with diabetes at University College Hospital and he directs the Department of Health Obesity Policy Research Unit.

Russell set up the first Adolescent Medicine service in the UK and went on to become the UK’s first Professor of Adolescent Health. He has acted as an advisor on adolescent health and obesity for the Departments of Health and for Education in England, for the World Health Organization and UNICEF internationally.

Academically, he has published over 200 peer reviewed papers and is currently named on £20 million in current research grants.

Russell Viner has significant ‘hands-on’ experience within the NHS, having been Clinical Director in a busy teaching hospital and clinical director for children and young people for the NHS across London, responsible for leading healthcare strategy for London’s 2 million children and young people.

Senior consultant of neonatal intensive care and continuing medical education, worked in Egypt and in several other countries and currently affiliated to Children and Women Specialty hospital, Al Galaa Military Complex.

She has 38 years experience in paediatrics and neonatology with focus on child health ‘CH’ system reform in addition to establishing and enriching community child health and preventive approaches in Egypt. She is the Founder and director of the Fundamental Postgraduate Training Program in Child Health which focuses on essential basic skills in CH and work on optimizing their social responsibility.

A professor in Kuwait University from 1988-1997.

Prof. Al-Alfy is the Founder and the President of Egyptian Members’ Association of the RCPCH. Additionally, she is leading ‘Our Dream Initiative’ for optimizing early childhood development in Egypt since 2015, with outstanding achievement impacting the health and welfare of more than 600,000 mothers and children.

She is one of the pioneers in continuous medical education for medical graduates and paediatricians in Egypt as the chief Host of clinical MRCPCH and DCH in Egypt. Moreover, Prof. Al-Alfy is the RCPCH-Regional Advisor for Middle East and North Africa and she was awarded in many occasions for her contribution to improving child health in Egypt.

ASHOKA Fellow and member of several scientific societies; ANECD, IBFAN Arab Region, ELCA.
CONFEREENCE VISE PRESIDENTS

Head of the London School of Paediatrics and Child Health.
Dr. Camilla Kingdon is a consultant neonatologist at Guy’s and St Thomas’ Hospital, London (Evelina London Children’s Hospital) and from July 2018 is the Royal College of Paediatrics and Child Health Vice President for Education and Professional Development. She graduated at the University of Cape Town and undertook her Paediatric training in London and has been a consultant since 2000. She completed an MA in Managing Medical Careers at the University of Brighton in 2013.

Dr. Kingdon has a number of educational roles and is currently the Head of the London School of Paediatrics and Child Health. She has a particular interest in medical careers – both in terms of offering one-to-one career support, and also in setting up structures to support career development. She is Co-Careers Lead for the RCPCH and has been instrumental in setting up a network of careers advisors within the RCPCH to support career-grade doctors.

Dean of Faculty of Medicine- Mansoura University
Professor of Paediatrics
Vice President of EMA-RCPCH
Professor El-Bayoumi has extensive trainings in the field of Paediatric intensive care, both in Egypt and UK. He has a wide experience in the field of medical education. He is an internationally certified trainer from IBCT (Netherlands)

HEADS OF SCIENTIFIC COMMITTEE

Anne Greenough is Professor of Neonatology and Clinical Respiratory Physiology. Director of Education and Training at King’s Health Partners Academic Health Science Centre. She was Board Member of the Higher Education Funding Council for England and Chair of the National Institute for Health Research (NIHR) Paediatrics (non-medicines) Specialty Group and is now Vice President Science and Research, Royal College of Paediatrics and Child Health (RCPCH). Professor Greenough is a member of the Department of Women and Children’s Health, Faculty of Life Sciences and Medicine, King’s College London and the Medical Research Council–Asthma UK Centre in Allergic Mechanisms of Asthma. Her research interests focus on the early origins of chronic respiratory disease and include factors affecting antenatal lung growth, optimisation of respiratory support, determinants of sudden infant death syndrome and prevention and treatment of chronic lung disease, particularly related to viral infections and sickle cell disease.

Professor of Paediatrics at Cairo University. She graduated and obtained Master of Science and Medical Doctorate degrees in Paediatrics from Cairo University. Additionally, She is a fellow of the Royal College of Paediatrics and Child Health. Dr. Galal is a member of the European Society of Immunodeficiency Disorders (ESIID), currently heads the Primary Immunodeficiency Unit in Cairo University Specialized Paediatric Hospital and she is also a member of the European Society of Paediatric Infectious Diseases (ESPID). She was trained in London, UK and is a certified trainer for child protection recognition and response courses as well as Effective Educational Supervision (EES) course.
Dr. Marta Krawiec

Dr. Marta was graduated from Medical University of Warsaw, Poland with honours in 2005. She continued her medical training in one of the leading teaching centres in Poland, the Department of Paediatric Pneumonology and Allergy in Warsaw where she completed both her paediatrics and allergology training. In 2016, Marta sat for the EAACI Specialization Exam in Allergology and now contributes to the exam organisation working for the EAACI Exam Committee. After completion of her PhD on systemic safety of topical corticosteroids in Warsaw, she joined Prof Gideon Lack team at King’s College London to continue her work. She is involved in a series of peanut immunotherapy projects as well as works on the continuation of the LEAP and EAT studies. In September 2018 Marta has taken on the post of Consultant in Paediatric Allergy at St Thomas’ Hospital. Marta’s special areas of interest are early childhood asthma, drug allergy and food allergy with the emphasis on peanut oral immunotherapy.

Dr. Tony Zbeidy

A globe trotter French-Lebanese national and a US Graduate Medical Doctor who initially studied in Lebanon and obtained a BS in Biology. He obtained an MD from USA and moved to UK training and working in Romford, Harold Wood and Basildon Hospitals. In 2001, he moved to France and joined Sanofi (Aventis at that time) as Medical Information Officer, in 2003, joined Orphan-Europe as Medical Advisor and 3 years later, established Orphan-Europe FZ LLC subsidiary in Dubai Healthcare City in 2006 as GM MENA, representing 1/3rd of Orphan-Europe total turnover in 2015 and growing. He has a distinguished achievement, having established the Middle East Metabolic Group (MEMG) and is organizing its annual meeting since 2004. In 2011, major pharma companies acting in the field of rare disorders such as Genzyme, Biomarin, Nutricia, Merck-Serono, SOBI, Nestle, Synageva, etc. joined in and in 2015, it represented 250 selected metabolic and genetic specialists from the MENA region.

Prof. Laila Selim

Prof Dr Laila Selim is an Emeritus professor of paediatrics, consultant paediatric neurology and neurometabolic diseases at Cairo university Children hospital, the biggest tertiary paediatric referral center in Egypt. Prof Selim teaches general paediatrics, paediatric neurology and metabolic disease for both under and post graduate. She is one of the main founders of the unit of inborn errors of metabolism at Cairo university children hospital, she is also the creator of the master degree of Paediatric neurology, which started in 2016 with seven candidates enrolled in the program. She supervised more than 25 master and MD Theses in the field of paediatric neurology, neurometabolic and metabolic diseases. She is the principal investigator of several international multicenter projects and has more than 20 international publications.

Prof. Ahmed EL-Beleidy

Prof. Ahmed EL-Beleidy’s has been graduated from Cairo University and has his training abroad in many countries. He held several academic and managerial roles in Cairo University. In 2011, he was appointed the Head of Paediatric ICU Department. In 2013, Professor El-Beleidy was elected as the head of the Paediatric Department in Cairo University. He retired three years later and resumed his role as paediatrics professor. Professor El-Beleidy shared in the supervision and evaluation of more than 100 M.Sc and MD theses, in different universities in Egypt. He is a member of the Egyptian Medical Association, Paediatric Medical Association and the Egyptian Society for Neonatal and Perterm Care. The main fields of interests are: childhood nutrition, paediatric critical care and ICU, paediatric allergy, vaccinology and antimicrobial therapy.

Prof. Toni Torresani

Toni Torresani studied biochemistry at the Universities of Berne and Zurich, Switzerland. He received his PhD in 1983. From 1973 onwards, he has been employed by the University Children’s Hospital, Endocrinology Laboratory, climbing up from research assistant, via deputy director towards director (1987). During this time, he became responsible for the laboratory of the neonatal screening programme first in the eastern half of Switzerland, and from 2005 onwards for the whole of the country. Toni has been a member of various professional societies including the European Society of Paediatric Endocrinology and ISNS. He served as member of ISNS–Council from 1999 to 2006 and was responsible for the development of the ISNS–website. As member of the Standard Committee for Quality Assurance he was involved in the establishment of the ISNS dried blood spot reference preparations. He played a major role in the organization of the ISNS European regional meetings from 2001 onwards. Toni has been active as consultant both by training colleagues in his own laboratory and by travelling to several countries spread over the globe (Poland, Bulgaria, Macedonia, Colombia, Argentina, and Armenia). He has been invited lecturer in many conferences and (co-)authored more than 200 publications on neonatal screening and paediatric endocrinology. On May 8, 2013, Toni received the Guthrie Award plaque during the 8th ISNS International meeting in Atlanta, GA, USA.

Prof. Annika Hiekkanen

Global Business Manager within the Maternal Fetal Health business unit at PerkinElmer. A chemical engineer (M.Sc.) from Åbo Akademi University in Turku, Finland, with 11 years of business and product management experience in the Maternal Fetal and Newborn screening markets, coupled with familiarity within chemistry operations, quality and product development.
Dr. Helen Goodyear MB, ChB, FRCP, FRCPCH, MD, MMed and MA is a Consultant Paediatrician with a special interest in Paediatric Dermatology. University Hospitals of Birmingham and Associate Postgraduate Dean, Health Education England (West Midlands) for careers, professional support, part-time training and Head Postgraduate School of Paediatrics. Her strong medical education interests include being an MRCPCH examiner, RCPCH career grade lead and clinical lead for the RCPCH EES course.

She is an executive member of the British Society for Paediatric Dermatology, undertook her MD on herpes simplex virus infections in children with atopic eczema and has a number of publications in both journals and books about skin disorders.

Dr. Helen Goodyear (FRCP-FRCPCH-MD)
Dr. Carla Irani

Dr. Irani obtained her Medicine Doctor Diploma from St Joseph University in Beyrouth. She did Internal Medicine residency Cooper Hospital, USA and the Allergy and Clinical Immunology fellowship at the Hospital University of Pennsylvania, USA. She is American Board certified in Internal Medicine and Allergy/Immunology. She holds a master of Clinical Epidemiology (Public Health) Practicing in Hotel Dieu De France Beyrouth, Lebanon, she was interested in many researches and had lot of publications in the Journal of Allergy and Clinical Immunology and other well-known journals Master lecturer at St Joseph University Beirut and University of Alberta Canada Fellow of The American Academy of Allergy, Asthma and Immunology and President – elect of the Lebanese Society of Allergy and Immunology. She gained several local and American Awards.

Dr. Bidisha Lahoti

Dr. Lahoti is a consultant paediatrician in community child health, with special interest in neuro–disability, for 16 years. She is the clinical director of Children’s Community Services, Evelina Guy’s and St Thomas’ NHS Foundation Trust, London. She was the member of the guideline development group that developed the National Institute of Clinic Excellence (NICE) guidelines on Cerebral palsy in under 25s: assessment and management. She is a member of panel of expert advisors for NICE centre for guidelines. She has held the posts of Training Programme Director, Regional Advisor for RCPCH and member of Advocacy Committee of RCPCH. She has had several teaching responsibilities and is currently a tutor for MSc in Paediatric Neuro–disability course.

Dr. Daniel Meyersfeld

Dr. Meyersfeld completed his PhD in molecular biology at the University of the Witwatersrand, South Africa, in 2005. During his studies, he saw an opportunity to use recent advances in the field of human genetics to improve people’s health and wellness and established DNAlysis Biotechnology in 2007. The company is now recognized as a global leader in the field of biotechnology, with an established practitioner following in South Africa, Scandinavia, Europe, Far East, Middle East and the USA.

Dr. Judith Van der Voort

Judith van der Voort is a consultant Paediatric Nephrologist in Cardiff, UK. She is the currently Head of School for Paediatric Training in Wales and up until recently the RCPCH Officer for Educational Provision. She has a long-standing interest in research, and has widely published in peer reviewed journals on urinary tract infections in children. She is passionate about education and training and, apart from being a conference speaker, will also participate in the Effective Educational Supervision course.

Prof. Maha S. Zaki

Maha S. Zaki (MD, PhD), Head of Clinical Genetics Department, Human Genetics and Genome Research Division, National Research Centre (NRC), Participating in many national and international projects as principal investigator, co-principal investigator and participant. Has many collaborations with Middle East, Europe and USA. Has about 137 publications mostly in international journals Participated in the discovery of many news genes and Delineated new recessive syndromes and assigned a new developmental brain defect, published in Brain. Dr Maha was chosen from Middle East, as a part of Cooperation in Science and Technology (COST) action of the European Network of Brain Malformation & she is a member of SPATAX network Won Many national & international awards and She is a member in many organizations.

Prof. Osama K. Zaki

Consultant of The Minister of Health for Medical Genetics Former Director of Medical Genetic Unit, Ain Shams University, Department of Paediatrics, Cairo, Egypt Prof. Zaki was awarded several grants for: screening of Inborn Errors of Metabolism among Institutionalized Intellectually Disabled Patients Using Tandem Mass Spectrometry. Creation of Network of centers for Metabolic disorders in Egypt and his efforts in Continuous Medical Education in the Field of Inborn Errors of Metabolism, in addition to Fellowship at Genetics Institute, Pasadena, California, USA. With 40 publications, Prof. Zaki contributed & enriched the scientific evidences in the field of medical genetics. His main areas of interest are the studies of Inborn Errors of Metabolism, increasing the awareness of Genetics disorders, usage of digital networks in Telemedicine and remote management of patients, transfer of recent diagnostic technology to minimize abroad referrals of industrial preparation of components of kits and special foods for patients with genetic disorders.

Dr. Carra Irani

Prof. Maha S. Zaki

Maha S. Zaki (MD, PhD), Head of Clinical Genetics Department, Human Genetics and Genome Research Division, National Research Centre (NRC), Participating in many national and international projects as principal investigator, co-principal investigator and participant. Has many collaborations with Middle East, Europe and USA. She has had several teaching responsibilities and is currently a tutor for MSc in Paediatric Neuro–disability course.
Mary Fewtrell is Professor of Paediatric Nutrition and Honorary Consultant Paediatrician at UCL Great Ormond Street Institute of Child Health, London, UK. Her research interests include the programming of health outcomes by early nutrition and growth, investigated in randomised nutritional intervention trials in both term and preterm infants, with long-term follow-up, and practical aspects of infant nutrition, with studies on breastfeeding, breast milk expression and complementary feeding. She also collaborates with Professor Jonathan Wells to investigate both biological and anthropological aspects of infant feeding. She is the Clinical Lead for Nutrition at the Royal College of Paediatrics & Child Health UK, and is a member of the Infant Nutrition working group at the European Food Safety Authority (EFSA). She was Chair of the Committee on Nutrition of the European Society of Paediatric Gastroenterology, Hepatology & Nutrition (ESPGHAN) from 18-2014.

Dr. Oliver Petrovic
Chief of Child Survival and Early Development Section, UNICEF Egypt Country Office
Oliver joined UNICEF in October 1992. He has worked in various programmatic areas including health, nutrition, and Early Childhood Development (ECD). He has strong skills in Research, Monitoring & Evaluation and published many articles and research reports. Oliver is a national of the Republic of Serbia. He holds a Medical degree from University of Belgrade and a Master’s degree in Public Health (MPH) from European School of Public Health.

Prof. Gihan Fouad Ahmad
Consultant of Paediatrics
Certified International Lactation Consultant
Clinical Nutritionist (ESPEN)
Board member of Egyptian Lactation Consultants Association (ELCA)
Advocacy Committee of International Lactation Consultants Association (ILCA)
National Nutrition Institute/Cairo

Prof. Mary Fewtrell
Prof. Gihan Fouad Ahmad
Prof. Rasha Tarif Hamza
Prof. Mohamed Ezz
Prof. Nehal El Koofy
Conference Speakers

Prof. Mohamed Hussein Abbas
(M.D, MRCP(UK))

Researcher in the National Research Center, Egypt. Consultant of Endocrinology and Metabolism at the Arab Contractors Medical Center.

Prof. Hanaa El-Karaksy
(M.D)

Prof. El-Karaksy was awarded on many occasions for being a distinguished professor, physician and educator by Cairo University and the Egyptian Medical Syndicate in addition to the International Publications Award by Cairo University every year between 2011 and 2018.

Prof. Dr. Sufin Yap
(MB, BCh, BAO, LRCP, LRCSI, DCH, FPAEDS(RCP), FRCPCH, MD (RCSI/NUI))

Professor Yap is a consultant paediatrician in metabolic medicine honorary senior lecturer to university of Sheffield, Sheffield Children’s hospital. NHS Foundation Trust, Sheffield, UK. She worked at the National Centre for Inherited Metabolic Disorders, where she received the Doctorate of Medicine (MD) from the Royal College of Surgeons in Ireland and National University Ireland (RCSI/NUI) in 2000 for her research on homocystinuria, since then she published many papers and received many awards for her fast experience in the field of metabolic diseases specially homocysteinuria.

In 2013, she was invited as a clinical and collaborating partner for the European Network and Registry for Homocystinuria and Methylation Defects (E-HOD) which is being funded by the European Union (EAHC 2012-12-02).

She has been invited as speaker at many international scientific activities, conferences and has many publications in metabolic disorders.

Prof. Wagida A. Anwar
(M.B.B.Ch, M. Sc., M.D.)

Professor at Department of Community, Environmental and Occupational Medicine, Faculty of Medicine, Ain Shams University, Egypt.

Dr. Anwar obtained her training from several institutions in different countries (France, USA, Japan, Germany, Sweden, Canada and Finland). As a General Coordinator of Health System Improvement Programs, Ministry of Health, Egypt since 2014, she contributed in Drafting the Social Health Insurance Law (SHI), National Health Policy and Health component of the Sustainable Development Strategy 2030, which is a continuation of her contribution in Health Sector Reform Program in Egypt (1996-2002).

She is the PI of several projects funded from different sources nationally and internationally. Internationally, she is a member of several Committee and Associations including Health Literacy Working Group, WHO Global Coordination Mechanism for The Prevention and Control of NCD (GCM/NCD), WHO since 2016, the Jury of the UNESCO - International Prize for Research in Life Sciences (Since 2009); Marie Cure, FP7, EC, (2008).

Collegium Ramazini, Carpi, Italy since 2006, President, Pan African Environmental Mutagen Society. Nationally, she is a member of several Committee at the Ministry of Health, Academy of Science and Technology and the National Women Council. She is the President of the Specialized Federation for Health System Improvement NGOs since 2014. Professor Anwar received a number of international prizes and awards including Dr. A. T. Shousha Foundation Prize (WHO) for 2001, Egyptian National Award of the Academy of Sciences, (1992), Fogarty International Fellowship Award, (1988) and the CEES Award, France (1986).

Prof. Hafez Mahmoud Bazaraa
(M.Sc., MD)

Director, Cairo University Mounira Paediatric Hospital – Abou El Reeshe (2011-2016)

Professor of Paediatrics, Cairo University (2013-)

Head of Paediatric Critical Care Division, Cairo University (2016-)

Conference Speakers
Abdulmoein Al Agha is a Professor of Paediatrics & Paediatric Endocrinology at King Abdul Aziz University. He received his Fellowship certificate in Paediatric Endocrinology and Diabetes from Sydney, Australia. Fellowship of the Royal College of Physician (Edinburgh), and graduated King Abdul Aziz University Medical School, Jeddah, Saudi Arabia. MRCPCCH Overseas examiner and host, supervisor for Saudi Board Paediatric residency training for western Region since 2001. He is a coordinator, Paediatric Club Western Region. He was the chairman of Reproductive Modules «New Faculty Curriculum». He was acting Chairman, of Paediatric, KAUK, a visiting Professor, Ibn- Sina Medical School. He has been invited to be an external examiner in the United Kingdom (London) and for many of Gulf and Arab countries; including Bahrain, Kuwait, United Arab Emirates, Oman, and Egypt for Paediatric under and post graduates as well for Endocrine examinations. Certificate of medical education-university of Illinois, Chicago, USA. In research he has published more than 102 publications in refereed journals and orally presented more than 120 presentations in international meetings. He has also authored an English textbook of Paediatric Endocrinology and diabetes textbook, and additional 10 Arabic books. A member of many of Paediatric and Endocrine local and international societies.

Dr. Wiam Al Farouk Younis, FRCPCH (London), MRCP (UK), DCH (Dublin), IBCLC (USA). She is Paediatrics consultant and in charge of Paediatric diabetes and insulin pump clinic in Al Galaa Military Hospital for Women and Children. She is a fellow of the Royal College of Paediatrics and Child Health (RCPCH) and an examiner for the RCPCH membership and Diploma of Child Health Exams. She is an International Board Certified Lactation Consultant since 2007. Volunteering for more than ten years in non-governmental organization dealing with Children with Diabetes. She is a trained effective education supervisor who participates in teaching and training doctors preparing for membership exams. She is a member of the International Society for Paediatric and Adolescent Diabetes (ISPAD), the Egyptian Society of Paediatric Endocrinology and Diabetes (ESPED), the Arab Society of Paediatric Clinical Nutrition (ASPCN), the International Lactation Consultant Association (ILCA) and the Egyptian Lactation Consultant Association (ELCA). She is a founding and a board member of the Egyptian Member Association of the Royal College of Paediatric and Child Health (EMA- RCPCH), and a member of the Egyptian Society for Diabetes Care (ESDC). She is an International Board Certified Lactation Consultant since 2007. Volunteering for more than ten years in non-governmental organization dealing with Children with Diabetes. She is a trained effective education supervisor who participates in teaching and training doctors preparing for membership exams. She is a founding and a board member of the Egyptian Member Association of the Royal College of Paediatric and Child Health (EMA- RCPCH), and a member of the Egyptian Society for Diabetes Care (ESDC).

Dr. Andrew Long (FRCPCH)

Andrew is shortly to complete his 5 year term of office as Vice President for Education at Royal College of Paediatrics and Child Health having previously held several senior College roles. He was previously Head of the London School of Paediatrics and Associate Dean in the University of London. Andrew has been involved in the work of the Academy of Medical Royal Colleges where he leads the work on remediation for doctors in difficulty. He has a longstanding interest in mentoring and careers support and completed a Masters in Interprofessional Education in 2008.

Prof. Dr. Andrew Long

Senior Consultant in general paediatrics within the UK for last 28 years.
Was appointed to Great Ormond Street Hospital in 2011 to support the development of the new team of general paediatricians. He became Specialty Lead for the general paediatric team in 2013 and was appointed as Associate Medical Director and Responsible Officer in 2016 with a brief for managing revalidation and medical affairs. He was appointed as Deputy Medical Director for Professional Accountability in May 2018. He is an Honorary Senior Lecturer at the Institute of Child Health and a Visiting Professor to the Shanxi Childrens Hospital, China. He is a Lead Assessor for the National Clinical Assessment Service.

Prof. Ahmed Mansour (MD PhD)
Professor of Paediatric Haematology & Oncology at Faculty of Medicine, Mansoura University for 17 years. He is currently the head of Haematology, Oncology, & BMT unit in Mansoura University Children Hospital.
He had a great experience in the management of patients with haematological disorders as well as solid tumors in children. Bone marrow transplantation and cord blood banking are the future interest for him.
Prof Ahmed Mansour is the former Vice Dean of Mansoura Faculty of Medicine at Mansoura University and is a National and International Expert of Quality Management and accreditation of Education.
Prof Ahmed Mansour is an expert member in the National Authority of Quality Assurance and Accreditation of Education (NAQAAE). In addition, he is an expert member in the Project Management Unit at the Ministry of Higher Education, and a Consultant to the Minister of Higher Education.
Prof Ahmed Mansour published 30 scientific research articles internationally as well as 36 at national scientific Journals. He is a reviewer and an editor at many scientific journals and reviewed more than 200 research articles for local and international Journals. In addition, he shared in the edition of six books in Paediatrics. Prof Ahmed Mansour is interested in Haematology, Oncology, Stem cell therapy, Cord Blood Banking, Thalassaemia, Haemophilia, Haemoglobinopathies, Immune disorders, and Oncologic Emergencies.

Prof. Iman Ragab (MD)
Associate professor of Paediatric hematology and oncology Ain Shams University.
30 international conferences and journal publications.reviewer of 5 international journals.
One of founders of paediatric multidisciplinary vascular anomalies clinic. Principal investigator in neonatal purpura fulminans registry

Dr. Fatma Seliman (MD, MRCPCH)
Dr. Ebeid is an assistant professor of Paediatric, Hematology & Oncology Department, Ain Shams University, Egypt. She is currently the executive director of Faculty of Medicine Ain Shams Research Institute- Clinical Research Center (MASRI- CRC).
Dr. Ebeid had more than ten years’ experience in conducting multi-center international clinical studies and she had special interest about designing clinical trial and ICH/ FDA good clinical practice for clinical trial sites.
She collaborated in research projects with MRC GCRF Foundation (UK), Egyptian National Research Center (NRC) and many other academic party. Dr. Ebeid had over thirty international and national scientific publications and she shared in edition of four Paediatric hematology oncology books.
Dr. Ebeid is a member in many national and international professional bodies and research groups, American School of Hematology (ASH), European Hematology Association (EHA), International Society of Paediatric Oncology (SIOP), Royal College of Paediatrics and Child Health (RCPCH), Egyptian Society of Paediatric Haematology and Oncology (ESPHO).

Prof. Aisha Elmarsafy

The founder of PID practice in Cairo University and is an Emeritus professor of Paediatrics at Cairo University. She is a member of the steering committee of the J project of the European Society of Immunodeficiency Disorders (ESID) and a member of the ASID (African Society of Immunodeficiency Disorders). She was trained in France at the Immunology service, Lyon. Hôpital Edouard Herriot and has a vast experience in the field of PID.

Dr. Safa Meshaal

Associate Professor of Clinical and Chemical Pathology, Cairo University. She is the head of the laboratory division of the Primary Immunodeficiency Disorders unit–Cairo University, a member of the European Society of Immunodeficiency Disorders (ESID) and the African Society of Immunodeficiency Disorders (ASID).

Dr. Sophie Khadr

She is a Consultant Paediatrician with expertise in Adolescent Health, safeguarding and care following sexual assault. She was trained clinically in Glasgow, Edinburgh and London, UK and is a joint Clinical Lead for the Havens Sexual Assault Referral Centres. The Havens are hosted by King’s College Hospital NHS Foundation Trust and are co-funded by the National Health Service (NHS) England and the Mayor’s Office for Policing and Crime in London. They provide forensic medical examinations for victims of sexual assault, acute and follow-on medical care, advocacy and psychological support. Her academic background is in Paediatric Endocrinology and Adolescent Health. She completed a research doctorate in Paediatric Endocrinology at the University of Edinburgh, and was then a National Institute of Health Research Clinical Lecturer in Adolescent Health at University College London from 2009–2015. Much of her research in the last 10 years has focused on adolescent mental and sexual health and involved vulnerable groups. Her research has influenced services and policy in the areas of health services for transgender young people and survivors of adolescent sexual assault. She is an honorary Senior Lecturer at University College London and King’s College London.

Dr. Jeanette Boutros

Consultant Paeditrician at Cairo University, a member of the European Society of Immunodeficiency Disorders (ESID) and the African Society of Immunodeficiency Disorders (ASID). She was trained in Necker Enfants Malades Hospital, France.

Dr. Sohilla Lotfy

Lecturer of Paediatrics, Cairo University and a member of the Bone Marrow Transplantation service at Cairo University. She is a member of the European Society of Immunodeficiency Disorders (ESID) and the African Society of Immunodeficiency Disorders (ASID). She was trained in Newcastle upon Tyne and Sheffield, UK.

Prof. Eman Iskander

Dr. Iskander is a graduate of Kasr Al Ainy Medical School –Cairo University. After her residency at Cairo University Children’s Hospital, she trained for 6 months at the Neonatal Unit of the Children’s Hospital of Groningen University in Holland. She received her MD degree from Kasr al Ainy Medical School and became Professor of Paediatrics and Neonatal Care in 2007. She is a certified NRP trainer and is an active member of the American Society of Paediatric research (SPR). She is a member of the Higher Scientific Counsel of the Egyptian Board of Neonatology and is a board member of the Egyptian Society of Neonatology (EAN). Her research interests are mostly in the field of neonatal jaundice. She is also a peer reviewer for several paediatric and neonatal journals.

Conference Speakers

**Prof. Tarek Barakat**

Associate Professor of Paediatrics/Gastroenterology & Hepatology at Mansoura university Children’s Hospital.

Instructor in the European Resuscitation Council since 2006

Good experience in Paediatric GI endoscopy, diagnostic and therapeutic procedures.

Interested in feeding of the neurologically handicapped children, by Percutaneous Endoscopic Gastrostomy (PEG).

**Prof. Janet Peacock**

Janet Peacock leads Medical Statistics in the School of Population Health and Environmental Sciences, King’s College London, UK. Her main research interests are in the use and extensions of statistical methods in research, and the communication of biostatistics to non-statisticians. Her clinical research includes paediatric studies, particularly preterm birth, cancer and other long-term conditions. Her main methodological interest is in making outcomes clinically meaningful and accessible to non-statisticians. She has written three biostatistics books for non-statistical researchers including the ‘Oxford Handbook of Medical Statistics’ and the new 2nd edition of ‘Presenting Medical Statistics’. She is joint-lead of NIHR Statistics Group and was appointed a NIHR Senior Investigator in 2017.

**Prof. Yasmin Gamal**

Lecturer of paediatrics and Consultant of paediatric clinical nutrition Ain Shams University. Nutrition Rehabilitation Unit Moderator and previous moderator of ketogenic diet clinic for Epilepsy Children.

Board member of Clinical Nutrition Master Degree Ain Shams University.

Clinical Nutrition Instructor AUC, National Nutrition Institute (MOH) and Clinical Nutrition Fellowship.

Board member and Treasurer of Arab Society of paediatric clinical nutrition.

**Dr. Marilyn McDougall**

She completed medical school training and paediatric specialisation at the University Of Cape Town and Red Cross Children’s Hospital in Cape Town, South Africa.

She is a full-time Paediatric Intensive Care Consultant at the Evelina London Children’s Hospital. (Guys & St Thomas’ NHS) and South Thames Retrieval Service and the Clinical Director for the South London and South East England specialist Paediatric Network.

She developed an interest in simulation education with the unique opportunity it provides to facilitate multi-disciplinary training focusing on human factors and crisis resource management. She was Training programme Director for the Royal College of Paediatrics with a lead role developing simulation from 2012-2018.

She is an honorary senior lecturer at King’s College London and lead the critical care module of the King’s College Advanced Paediatric MSC.

She has been part of a group who trained the first Paediatric Retrieval nurse practitioners (RNP) in the UK.

**Prof. Hanan Ebrahim**

Professor of Paediatrics in Faculty of Medicine Ain Shams University.

Head of PICU Ain Shams University Hospital.

PICU Consultant in IMC for 8 years from 2007 to 2014.

Head of PICU at Al Galaa Military Hospital since 2014 till 2018.

Member of ESPNIC (European society of Paediatric and Neonatal Intensive Care).

ERS (European Respiratory Society).

Egyptian Paediatric Association.

Egyptian Society of Paediatric Allergy & Immunology.

Ain Shams Paediatric Society-Ain Shams Paediatric Respiratory Society.

Head of ESPPCC (Egyptian Society of Paediatrics & Paediatric Critical Care).

**Dr. Nagat Arafat**

Consultant paediatric intensivist (Banha Children Hospital).

MRCPCH & DCH Examiner.

Examiner and Clinical supervisor at Egyptian paediatric Fellowship.

Board Member of (EMA–RCPC) association.

More than 28 years of experience in paediatrics field, including NICU, PICU, PALS, Safeguarding children and Child Protection in Egypt.

Speaker in many General paediatrics and PICU conferences.

Participating regularly in CME and TOT courses for junior doctors and paramedics.

**Prof. Ilham Youssry**

(MD- ICT - MHPE)

M.Sc. Paediatrics and M.D. Paediatrics, Faculty of Medicine, Ain-Shams University, Egypt

Founder and Head of the Nutrition Rehabilitation Unit Children’s Hospital, Ain Shams University 1997 till 2010.

Collaboration with various specialized clinics in the children’s hospital Ain Shams University (oncology, Cardiology, nephrology, Hepatology, Neurology clinics) to provide specific nutritional rehabilitation protocols.

Teaching nutrition and clinical nutrition at:
- Paediatric department, Faculty of Medicine Ain Shams University
- the Institute of childhood studies Ain Shams University.
- Masters of clinical nutrition, Ain shams university
- Instructor of medical nutrition therapy diploma in American university in Cairo.
- Instructor of paediatric clinical nutrition diploma in NTI National Training Institute, Ministry of Health.

She is nutrition chapter author in undergraduates paediatrics book at Ain Shams University reviewed every 2 years.

She has many publications within nutrition field.

---

**Prof. Khalil Abdel Khalik**

(MD, FRCPCH)

Professor of Paediatrics and Head of the Paediatric Hematology and Bone Marrow Transplantation (BMT) Unit, Cairo University.

- M.B.Bch degree, Cairo University (1990)
- M.Sc. (Masters) in paediatrics, Cairo University (1994)
- M.D in paediatrics Cairo University (1998)
- Board of Certified trainers (IBCT) and Human Resource Development Professional, European division (2008)
- Professor of Paediatrics and Paediatric Hematology, Cairo University (2009–present)
- Masters in Health Profession Education & Management (MHPE), Maastricht and Suez Canal Universities (2011)
- American Board in Medical Education and Research, FAIMER, Philadelphia, USA (2012)

Dr. Khalil has received his masters and PhD degrees from Cairo University where he became an associate professor of Paediatrics.

He is a staff member of the Paediatric Nutrition Clinic. He is a member of the Royal College of Paediatrics and Child Health and a lead for Paediatric Cardiology and safeguarding children at SASH.

He also runs respiratory and allergy clinics as part of his interest and training. Dr. Khalil also is a founder member of the Royal College of Paediatrics and Child Health and he is currently the Strategic Lead for Training and Examination for MENA at the RCPCP.

Dr. Khalil is a founder of the South Thames Paediatric Respiratory Group which he chaired for 10 years between 1993 and 2003. Dr. Khalil is a senior examiner for the MRCPCH Paediatrics and has contributed to two major textbooks in Paediatrics.

---

**Prof. Sanaa Yousef**

(MD)

Dr. Majeed Jawad

(MBChB, FRCPCH UK, FRCP (London), DCHRCR (Dublin))

Dr. Jawad special interests are cardiology, respiratory and allergies.

Dr. Jawad received his training in Paediatrics at Cardiff University Hospital, Bristol Children hospital, Queen Mary’s University Hospital London, Westminster Children’s Hospital, Charing Cross, North Middlesex and the Royal Brompton Hospital. The last part of his training was mainly in Cardio-respiratory at the Royal Brompton and Harefield NHS Trust.

Dr. Jawad is an honorary consultant at the Royal Brompton & Harefield NHS Trust.

Areas of interest in teaching and research include childhood disruptive behaviour, anxiety and mood disorders, special interest in related biological and family factors. She managed to establish and directed the development of special clinics of ADHD and disruptive behaviour, elimination disorder clinics attached to child psychiatry clinic. She has many publications in Egyptian and international journals in the field. She conducted and tutored a number of training courses, workshops and conferences along her career.

Special interest in community services includes training of trainers (TOT) for young psychiatrists, psychologists, social workers, NGOs and teachers to deal with children and adolescents. Community work includes conducting a treatment team to outreach clinics, in different governorates in Egypt and with orphanages.

In addition to affiliation to Egyptian Psychiatric Association (EPA), Dr El Bakry is a member of ISAM and the Egyptian Medical Association for the Study of Obesity (EMASO) that worked to develop psychiatric guidelines for treatment of obesity in children and adolescents. She is vice president and one of the founders of the Egyptian child & adolescent psychiatry association (ECAPA).

She has been a member of the Egyptian Universities Promotion Committees (EUPC) from 2008 to 2016.

---

**Dr. Azza El Bakry**

(MB.Bch, Msc Neurology & Psychiatry, MD Psychiatry)

Professor of Psychiatry, Cairo University

Head of Child Psychiatry Unit, from 2006 to 2015

Head of Psychiatry Department, Cairo University from 2015 to 2018

Her work activities include teaching, training and research in child and adolescent neurodevelopmental and psychiatric disorders.

Areas of interest in teaching and research include childhood disruptive behaviour, anxiety and mood disorders, special interest in related biological and family factors. She managed to establish and directed the development of special clinics of ADHD and disruptive behaviour, elimination disorder clinics attached to child psychiatry clinic. Colors Medical Laboratories is an Egyptian genetics labs dedicated in providing the Egyptian society with specialized genetic testing to empower people to take action to improve health and research outcome. Derived from our passion to science, Colors Medical Labs is equipped with the latest innovations in genetic analysis with a competent team to insure a fast response to both patients’ and researchers’ needs. In Colors Medical Laboratories, we believe that with innovation and right implementation we can have a healthier and brighter society.

Analysis is a leading life sciences company founded in 1999 as a sister company to Clinilab, focusing on the research and forensic analysis sector. As a partner to Thermo Fisher Scientific, Analysis has proven its ability to sustain and represent life sciences colossus in Egypt. Today, Analysis has several sales and marketing departments, including Technology Solutions, Consumables, Lab Products, Quality and Safety, Bio Production, and Cytogenetics. These departments were created with the customer in mind to maximize the focus of our team for the ultimate customer experience.

Clinilab is an Egyptian, Cairo-based Company that has been operating for more than 36 years. Since the company first started, it got known for being devoted to supplying top quality laboratory equipment and reagents to the Egyptian market. Clinilab provides lab solutions in various fields such as forensics, diagnostics, blood banking, agriculture as well as food and pharmaceutical production process control. Our partners are known to be the international leading providers of innovative lab technologies. While actively working, Clinilab has succeeded in fulfilling the market’s needs in both areas of academic research and applied testing.
